

Wolston is creating a Neighbourhood Plan which will enable us to shape how our community develops in the future. Our Plan, when adopted, will be a binding part of the Rugby BC Local Plan, valid for the Local Plan period to 2031. The Neighbourhood Plan will enable us to identify and protect important local green spaces, choose (not be told) where any new homes, shops, offices and other development should be built, influence what any new buildings should look like, identify shared aspirations for the future of Wolston and develop a common vision for our neighbourhood.

As a first step we would appreciate if you would please give us your responses to the three initial questions overleaf, which will help with development of an initial more detailed community wide questionnaire. We will keep you updated, and seek your input, at approximately six weekly intervals during development of the Neighbourhood Plan, and would also welcome any support or skill you are able to offer.
